PROJECTS

Online Prescription Store System (Final Year Group Project)

It's a web application, by which we can store our medical reports, prescription, upcoming doctor's appointment and 'll also notify user medicine time and many more. We created it using HTML, CSS, React, Node.js, Express.js, MongoDB Atlas.

A Mobile Application

It's a basic APK about myself. It is one of my semester final project. I created it using basic java language
